

**Water and Wastewater – Notice of Rate Increase**

Dear MUD #537 Residents,

This letter is to inform you of upcoming rate changes to your water and wastewater bills. These changes are due to increased rates published and approved by the City of Houston. The current and future City of Houston rates can be viewed at <https://www.houstontx.gov/citysec/HPW/ratestable.pdf>. Harris County MUD #537 receives its potable water from the City of Houston and all wastewater generated from users within the District is treated by the City of Houston. The Board of Directors for Harris County MUD #537 has elected to increase rates, applying the increases in 2 stages over 6 months instead of applying the increases all at one time.

Although the Board of Directors for Harris County MUD #537 cannot control decisions of the City of Houston, they continue to work diligently to keep water and sewer rates equal to or less than the rates paid by residents within the City of Houston and taxes as low as possible.

The new rates, which are outlined in the enclosed charts, will begin on November 15, 2023. The final increase will occur on May 15, 2024. Total increases are based on individual household usage. If you have any questions or concerns, please do not hesitate to contact our office at **281-807-9500** during business hours.

Thank you,

Harris County MUD #537  
Board of Directors
